

The establishment of a self-sufficient community.

Contributed by Abdun Nur

If you wish to be part of this endeavour, through donations, ideas, advice, money, materials, time or support of any kind, or if you, with your family, would wish to join yourselves, to establish this purpose, please become a member of this website, you can contact us through the 'contact us' link, or the forum once you are a member, thank you for your interest.

1 - To connect with the people who wish to form a true community.

2 - To establish the skills and resources available from the group.

3 - To find the best location to establish the community.

4 - To plan, apply for grants if available, etc.

5 - To invest in the property, equipment and materials required.

6 - To begin work, build the true community we all require, but are denied through sovereignty. Outline of Concept:

The establishment of a self-sufficient community.

Viable self-sufficiency within a community of like minded families, working together to form and develop themselves, their families and those around them, building skills, knowledge and wisdom, in an environment, planned, and built, by the community members themselves, with the establishment of homes, farm buildings, organic crops, poly tunnels, fruit trees, fish lake, free range chickens, bees, goats, etc.

A community of trade and in house production, the removal of taxation, so the real focus of life is returned once more to the development of the community you exist within, not the endless, and increasing demands of the parasitic state, draining away your efforts, to the elite and pointless bureaucratic edifice they have manufactured, to enslave us.

The real meaning of life, is to live it, most have never lived, they foolishly believe drinking, nights on the town, watching television, working day in day out, watching the clock, smoking, eating chemical laced, toxin filled foods, always feeling ill, never having time to play with their children, no true friendships, is life. This is not life, this is existence, further, existence without purpose, beyond production of wealth, wealth they never even enjoy.

Compatible beliefs of community members:

No compulsion towards the actions of others, so removal of subjugation, beyond responsibilities within the community, accepted and agreed to, without coercion.

Freedom of religion, only as far as that does not impact negatively upon those around you.

Freedom of expression, without intimidation or untruths.

Freedom of labour, based upon a register of labour in combination with a silver coinage system (would ultimately be established).

Community based discussion, and planning, to execution, no sovereigns, but general consensus of agreement.
